Student Welfare Accountability Report

The Division is committed to providing a safe and healthy study and work environment for its students, staff members, volunteers and the general public. The welfare (safety and well-being) of the students in our schools is of vital importance to the students, parents, staff and Board of Education of the school division. This report summarizes information related to Student Welfare for the 2019-20 school year.

Superintendent of Education Chad Holinaty highlighted that a common theme across all areas reported was the importance of community partnerships. For example, the Community Threat Assessment and Support Protocol involves a variety of community partners from across the region who have committed to collaborate, share relevant information, and develop supportive and preventative plans to enhance safety in our schools and communities.

2020-21 School Year Opening Week

The first day of student in-class attendance was September 8th. The Board expressed their thanks and appreciation to all staff who worked to prepare schools and develop plans for a safe return to school, and to our students and families for their patience, understanding, and support for new school routines. May God Bless the students, families, and staff of CTTCS.
