				Division Targets By 2030, Indigenous knowledge systems, cultures and languages will be embedded within the structures, policies, teaching practices, and curricula of CTTCS. By 2030, CTTCS will support the achievement of success for Indigenous students through the actualization of the Inspiring Success Policy Goals.		Measures By 2026, in partnership with the Saskatchewan School Boards Association, the Indigenous Education Responsibility Framework will be utilized as a tool for measurement for both targets in this priority action. Improvements in Indigenous education will be measured through evidence showing progression across the continuum for each Inspiring Success stepping stone. Success criteria will be developed for each of the stepping stones within the Indigenous Education Responsibility Framework and will include data components to assist in demonstrating location on the continuum. For example, tools for eliciting student voice and improvements in student-level outcomes will be used to show alignment with respective stepping stones as indicators of success.	
				Progress Monitoring – Baseline data will be collected during the 2023-2024 school year (IEFR).			

¹ Land-based learning supports the Indigenous-led passing of knowledge about cultural, physical and spiritual connections to the land and environment.
